Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

This Office Action is responsive to the Election filed June 13, 2007 and the remarks filed March 1, 2007. The objection of claims 4 & 5 under 37 CFR 1.75(c) as being in improper form is overcome. The rejection of claims 1-5 under 35 U.S.C. 103(a) as being unpatentable over Kohzaki et al. U.S. Pub. 2002/0182497 in view of Armand et al. U.S. Pub. 2004/0033360 is overcome.

Election/Restrictions

The restriction of claims 1-7 is withdrawn. Pending claims 1-7 are currently treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for phosphoric acid, phosphorous pentoxide,

Art Unit: 1745

ammonium dihydrogenphosphate and diammonium hydrogenphosphate, does not reasonably provide enablement for a compound which releases phosphate ions. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims.

Present claims 11-7 relate to an extremely large number of possible phosphate ion releasing compounds. In fact, the claims contain so many options or possible permutations and provisos that a lack of clarity and conciseness exist within the meaning of 112 to such an extent as to render a meaningful search of the claims impossible. Consequently, the search has been carried out for those parts of the application which do appear to be clear (and concise), namely those citing actual. It appears as though the claims are allowable with respect to the above listed phosphate compounds. However, it is unclear as to whether other non-disclosed phosphate compounds are enable.
